Our Products

Absorbent cotton wool IP/BP/USP roll

we produce a very superior quality of absorbent cotton. Which is IP graded. Its absorbed a body fluids very efficiently. The raw material is used for making a absorbent cotton roll is IP graded.

Soft and natural | Highly absorbent | Ready-to-use

Surgical Cotton or Cotton Wool and mainly used for medical purposes in hospitals, nursing homes, dispensaries and at home (for first aid) etc. because of its property of high fluid absorbency, it is better known as absorbent cotton. The raw cotton is processed by a series of steps which render the cotton hydrophilic in character and free from external impurities needed to be fit for use in surgical dressings and personal hygiene.

ABSORBENT COTTON

1. Even edges
2. Absorbency time very low
3. No loose fibres
4. Consistent layer
5. 100% pure cotton

Available in 25 gm, 50 gms 100gm , 200 gm 400 gms 500 gms

Absorbent Cotton Balls

We offer a wide range of Cotton Balls made with extra soft, 100% pure nonchlorine bleached cotton which is absorbent, soft, compact and comes in uniform size and weight in handy packs Cotton balls will also absorb liquid well, but because of their shape most of the liquid stays trapped in the ball. A round or square cotton pad will save on cosmetic use by keeping more liquid at the surface, where it is used.

Available in White as well as in coloured Cotton in pastel colors ideal for make up applications.

Available from about 0.35g to about 2g weight

Our Products

Zigzag Pleated Absorbent Cotton Wool IP

Bandage

We offering a gauge, light, open-weave fabric made of cotton when used for surgical dressings and of silk and other fibres when used for dress trimming. The name is derived from that of the Palestinian city of Gaza, where the fabric is thought to have originated.

Covering a break in the skin helps to control bleeding and protect against infection. Dressings are pads of gauze or cloth that can be placed directly against the wound to absorb blood and other fluids.

Available in 2, 3, 4, 6 inch

Cosmetic Cotton Rolls

The most common use of 'cosmatic cotton roll' is to apply and remove the makeup. Its soft fabric cleanse the skin without scratches. face has too sensitive skin that needs a gentle care. 'Cotton rolls are soft enough to remove makeup by gentle rubbing over the skin. Cotton absorbs your removal liquid and makes it easier to wipe off makeup. When applying skin care, cotton pads also spread your liquids more evenly, making sure your skin care is absorbed by the whole face. Cotton pads are also cleaner than your hands.

The oil and bacteria on your hands can be a cause for pimples or irritation when you touch your face.

If you must use your hands, make sure they are well washed.

Available in 25 gm, 50 gms 100gm, 200 gm 400 gms 500 gms
